Acceptance Testing

UAT Execution & Report Submission

Date	21-10-2026
Team ID	23KD1A0571
Project Name	Employee Raise Issue – Record Producer & Service Portal Integration Guide
Maximum Marks	4 Marks

1. Purpose of Document

This document briefly explains the test coverage and the open observations of the Employee Raise Issue – Record Producer & Service Portal Integration Guide project at the time of its release to User Acceptance Testing (UAT).

2. Defect Analysis

No defects are recorded in the project's test record. Three observations came up while preparing this report; they are listed below and stay open until they are reviewed.

ID	Observation	Area	Status
OBS-1	The saved record shows Category = Software with Subcategory = Laptop, although the configured mapping is Software → Server. The dependency is set on the table's Subcategory field, while the Category and Subcategory variables in the Record Producer are separate and not linked to each other.	Category–Subcategory dependency	Open – to review
OBS-2	The mandatory Short description rule (State = New) and the hover movement of the widgets are described in the test steps but are not visible in the screenshots.	Test evidence	Open – to review
OBS-3	The step text and the screenshots show different developer-instance URLs, so the instance prefix should be confirmed.	Documentation	Open – to review

3. Testcase Analysis : This report shows the number of test cases that have passed, failed, and untested

Section	Total Cases	Not Tested	Fail	Pass
Portal Access	1	0	0	1
Portal Widgets	2	0	0	2
Record Producer Form	2	0	0	2
Record Creation (auto-number)	1	0	0	1
Form Rules (UI Policies)	2	0	0	2
Category–Subcategory Dependency	1	1	0	0
Total	**9**	**1**	**0**	**8**

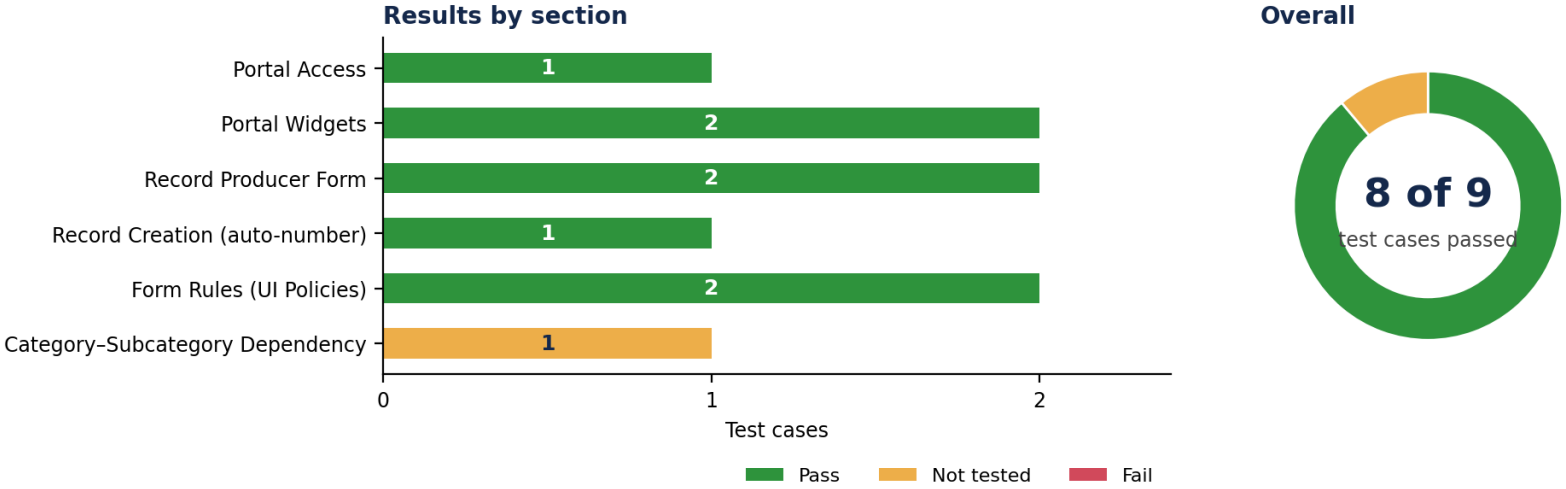

Figure 1 – UAT results by section and overall

4. Test Case Details

ID	Section	Test case	Expected result	Result	Evidence
TC-01	Portal Access	Open the portal URL /employee_request	Portal loads with logo, menu, My Recent Items and search	Pass	Screenshot: portal home page
TC-02	Portal Widgets	Scroll down to the widgets	Commercial widget and Raise an Issue widget are visible	Pass	Screenshot: widgets on the portal page
TC-03	Portal Widgets	Hover over the widgets	Widgets float and animate	Pass	Project test steps
TC-04	Record Producer Form	Select Raise Ticket	The Raise Employee Issue form opens	Pass	Screenshot: Record Producer form
TC-05	Record Producer Form	View the variables	Requester, Category and Subcategory choices are shown with Submit available	Pass	Screenshot: Record Producer form
TC-06	Record Creation	Submit the form	A record is created with an auto-number	Pass	Screenshot: record EMP0001009
TC-07	Form Rules	Check the Number field	Number is read-only	Pass	Screenshot: greyed Number field
TC-08	Form Rules	Set State to New	Short description becomes mandatory	Pass	Project test steps
TC-09	Dependency	Select a Category on the table form	Subcategory shows only the matching option	Not Tested	Not captured; see OBS-1
